Crystal Atmosphere by Frida Fjellman at Hostler Burrows, New York

Marking her New York debut, contemporary artist and designer Frida Fjellman has developed a new version of her Netjets private lounge installation which showed at Art Basel Miami Beach last year. Visitors are invited to wander through the Swedish designer's 'crystal forest' that is composed of hanging hand-blown crystal lanterns, which gently pulsate, gracefully attached via a chain to create a mesmerising experience. The installation Fjellman says is intended to 'impart a sense of calm as well as to intrigue and fascinate.'

9 March - 20 April; Hostler Burrows, 35 E 10th Street, 10003, NYC
