On view now at [Hostler Burrows'](#) LA gallery: new work by Korean-born, New York-based multi-disciplinary artist Eun-Ha Paek. The enchanting collection of ceramic sculptures explores Paek's fascination with "how seemingly banal objects can evoke profound feeling and reaction." The exhibition runs through August 26th. Also of note, Hostler Burrows has extended its highly successful New York gallery show, [Bend, Bubble and Shine: Copenhagen Ceramics](#), through the end of the summer.
