Opening Reception, Friday, November 15, 6-8pm

35 East 10th Street, NYC

New York, NY – Hostler Burrows is pleased to announce *Confluence*, an exhibition of new work by ceramic artist Maren Kloppmann that is her first solo exhibition with the gallery. The exhibition will be on view at Hostler Burrow's New York gallery from November 15 through December 13, 2019, with an opening reception for the artist on Friday, November 15, 6-8pm.

Kloppmann's newest body of work considers the gallery space in its entirety, creating a cohesive installation of her signature porcelain wall sculptures. The artist has developed three new series which introduce curvature and movement to her controlled assemblages. "Convergences" are rendered in

diagonal gestures of motion, “Helical Stacks” reinterpret the flow of a spiral staircase, and “Fragments” reference architectonic segments.

Serene in palette and refined in form, Kloppmann’s work strikes an elegant balance — in her words “a visual confluence of serendipity and precision, where intuition and intention intersect.” While acknowledging the influence of conceptual ideologies of Modernism and Minimalism, her work takes visual cues from both man-made constructs and the natural world. These broad and divergent sources applied through Kloppmann’s mastery of clay yield work that appears at once rigid and soft, tangible and ethereal, systematic and random. This balance is the through-line of the artist’s practice.

Fragment I, 2019

Born in Germany in 1962, Kloppmann received her Journeyman degree in 1984 from the Bavarian Keramik Handwerkskammer before moving to the United States to further her studies in ceramics. After artist-in-residencies in North Carolina and Michigan, she subsequently received her BFA at the Kansas City Art Institute in 1993, and her MFA at the University of Minnesota in 1996.

About Hostler Burrows

Hostler Burrows is a design gallery founded in 1998 by Juliet Burrows and Kim Hostler. Specializing in Nordic design and art, the gallery has expanded its program and now integrates a full roster of contemporary artists, both established and emerging, with historical works. While international in scope, the gallery's primary focus remains in Scandinavia and rooted in the tradition of studio ceramics,

particularly work by female artists. The gallery is devoted to exhibiting work imbued with the qualities from which it has drawn inspiration since its beginnings – craftsmanship, intention, and integrity. Hostler Burrows' unique vision and deep understanding of the sublime design which emerged from Scandinavia in the 20th Century carry over and inform the contemporary work which is brought to market with passion and a critical eye.
